

MINI PCs

ultraFLEX Mini PC V3

The perfect PC for KVM solutions

WHY WEYTEC

SMALL BUT POWERFUL

The most compact and power-efficient professional mini PC

The ultraFLEX Mini PC is a compact and efficient mini PC that is built for 24/7 operations. It can be installed at the workplace or in the system room. It is capable of driving two to seven screens and features a full range of interfaces. The ultraFLEX Mini PC provides maximum power with a minimum footprint.

- Green IT
- Extremely low noise and heat emissions
- Supports up to seven screens and 5K resolutions
- Flexible and individual CPU, RAM and SSD configurations
- Redundant power supplies (optional)

Installation

Standalone at the workplace

In a 19" KVM chassis in the system room

WHY WEYTEC

PERFECT INTEGRATION

and easy cabling with WEYTEC KVM solutions in a single chassis
